## NOTES

25X1X

1. Since approximately 1951 an ammunition dump has been under construction in a woods about 1000 meters southeast of Tucherice (50 16 N - 13 40 E). It is supposed to be an ammunition dump for an armored unit at Zatec (50 20 N-13 33 E), the barracks of which are located at the outskirts of Zatec, towards Bezdekov. This construction is probably being done in connection with an expansion of the barracks.

2. Part of the wood has been fenced off with wire mesh. There are about ten small wooden barracks housing the soldiers.
3. The construction is carried out by the firm Severostav<sup>1</sup> at Replice (50 38 N-13 50 E) or Sati n.L. (50 40 N-14 02 E).
